

RULES ONBOARD

These rules exist for all passengers' comfort.

1. Alcohol on board

Alcohol bought on board and consumed or carried in public spaces will be confiscated. Try out the wide selection of discounted beverages in the bars.

2. Parties in the cabins and loudspeakers

Loudspeakers are only allowed in the cabins.

3. Keep the sound level reasonable

Decrease the sound level if the guards, group leaders or your neighbors ask you to so.

4. Silence from 06.00 to 10.00 a.m.

In the cabin compartments it should be silent from 06.00 to 10.00 a.m. to allow passengers to rest. If you want to party go to the bar/disco. On the 17th and 19th of November stricter times of silence apply.

Cabin parties are fun, but don't bring your own music system on board; it is prohibited. According to safety regulations it's not allowed to have your own, large sound systems in the cabins, the corridors or other areas on-board. It is a security risk and can be downright dangerous in the event of evacuation. If brought on-board or to the harbor, larger music system equipment will hence be confiscated.

The main audio system you can have with you is the portable "boom boxes" or computer speakers. Volume may though not be so high that it interferes with your neighbors. If other guests or staff asks you to lower the volume, respect this.

5. Lights and sprinklers

Lights and sprinklers are necessary safety equipment. It is forbidden to cover, dismantle or in any other way to make these out of order.

6. Be careful with the sprinklers

The sprinklers are sensitive to shocks, if they go of it will result in a very expensive work to restore the cabin.

7. Smoking is not allowed in the cabins or on the dance floor

Smoking is only allowed in marked areas. If you smoke in non-marked areas you will be fined. If you smoke in your cabin, you will be fined per bed and/or per person in cabin due to restoring the cabins.

8. Clean your cabin before arrival at your destination

9. All passengers in one cabin share the responsibility for the cabin

If your cabin is damaged all passengers in it share responsibility and will share the cost for repairs and cleaning.

10. Don't damage anything on board

All damage will result in liability and will be reported to the police.

11. Severe cases

In severe cases of misbehavior passengers may be put ashore in nearest harbor and surrendered to the police. The passenger has to arrange the return trip.

12. Do not bring food and alcohol on board

Please do not bring food and alcohol on board. It may be confiscated.
